

ADVERBS

Adverbs are a category of words in English that primarily modify verbs, adjectives, other adverbs, or entire sentences. They provide additional information about how, when, where, or to what extent an action is performed, or they can modify adjectives to describe more precisely. Here's a breakdown of different types of adverbs:

Adverbs of Manner: These adverbs describe how an action is performed. They often answer the question "how?"

Example: She sings beautifully.

Example: He drives carefully.

Adverbs of Time: These adverbs describe when an action takes place. They answer the question "when?"

Example: They arrived late.

Example: I will call you tomorrow.

Adverbs of Place: These adverbs describe where an action takes place. They answer the question "where?"

Example: He looked everywhere for his keys.

Example: She placed the book here.

Adverbs of Frequency: These adverbs describe how often an action occurs. They answer the question "how often?"

Example: I always brush my teeth before bed.

Example: They rarely go to the movies.

Adverbs of Degree: These adverbs modify adjectives or other adverbs to show the degree or intensity of an action. They often answer the question "to what extent?"

Example: It's very hot today.

Example: She sings quite well.

Adverbs of Certainty: These adverbs express the degree of certainty or likelihood of an action. They answer the question "how sure?"

Example: Certainly, I can help you.

Example: Maybe he will come later.

Adverbs of Duration: These adverbs indicate the length of time an action occurs. They answer the question "how long?"

Example: They waited patiently for hours.

Example: The meeting lasted briefly.

Interrogative Adverbs: These adverbs are used to ask questions. Common interrogative adverbs include "how," "when," "where," "why," and "to what extent."

Example: How did you do that?

Example: Where are you going?
