

Adjectives - Superlatives:

Superlatives are used to express the highest degree of a quality among a group of three or more things. In English, superlatives are typically formed by adding "-est" to short adjectives, or by using "most" before long adjectives.

Examples:

1. Short Adjectives:

- *Tall* (positive) → *Tallest* (superlative)
- *Fast* (positive) → *Fastest* (superlative)

2. Long Adjectives:

- *Beautiful* (positive) → *Most beautiful* (superlative)
- *Interesting* (positive) → *Most interesting* (superlative)

Use of Definite Article ("The"):

The **definite article** in English is "the". It is used before a noun when we believe the listener or reader knows exactly what we are referring to.

Example:

- I saw **the** movie last night. (Referring to a specific movie)

Summary Chart:

Positive	Comparative	Superlative
Tall	Taller	Tallest
Fast	Faster	Fastest
Beautiful	More beautiful	Most beautiful
Interesting	More interesting	Most interesting
